

### ORIGINAL - SYNTHETIC DEMO

This handbook is a synthetic demonstration for QuoteCarry.  
Every policy and workflow described here is fictional.  
Use these pages to inspect quotation movement and revision.  
They are not documentation for a real organization or product.

#### 1. Preparing the review

Review windows follow a fixed schedule.

Completed uploads remain available for seven days after review.

Reports arrive through a single submission inbox.

The review queue preserves the original order of submitted reports.

The following rule describes the import process.

Failed imports are retried automatically before the next review.

Review staff should check this section after each update.

#### 2. Comments and archives

The comments panel has a dedicated export action.

Reviewers can export the full list of pending comments.

Archived material remains read-only.

Each archived report keeps its original reviewer notes.

The archive section concludes this synthetic handbook.
